Allakkiaq atuaruk apeqquutillu akillugit.

New Ice Fjord Centre in Ilulissat

Greenland will get a new building of international class in Ilulissat. It is a new ice fjord centre where tourists will get information about the Ice Fjord.

The centre was designed by Danish architects Dorte Mandrup Arkitekter.

There are already many tourists coming to Ilulissat to see the ice fjord. The new centre may help to attract even more tourists from all over the world.

More tourists will bring more jobs, more income and development to the town. People in Ilulissat are looking forward to that.

The architects must protect the beautiful landscape around Ilulissat so the new building should not spoil the landscape.

Text source: Greenland Today, March 2017 (adapted)

Answer the questions.

Besvar spørgsmålene.

Apeqquittit akikkit.

1. What can you learn and find out in the new centre?

2. Were the drawings for the centre made by a company in Greenland?

3. What could be good effects of the new centre?

4. What is special about the landscape near Ilulissat?

5. What do the architects have to think about?
